

## Information about extension of lifetime period and dates of revisions of rescue parachute systems made by firm *USH*

### 1. Rescue parachute systems have made since 2006

Type:	Since serial number:	Lifetime period:	Revision RM and repack ZPS
USH 35 Softpack	60335001	24 years	Every 6 years
USH 35 Alu - container	60335003	24 years	Every 6 years
USH 520 Softpack	60152003	24 years	Every 6 years
USH 520 Alu - container	60852042	24 years	Every 6 years
USH 52 S Softpack	60152001	24 years	Every 6 years

**Reason:** the extension of lifetime period is certified by working rescue parachute systems (RPS), by experiences from their revisions and by using RPS during the rescue of airplanes .

- 2. Measures for revision (air out and repack of system and change of rocket engine):** It's necessary to provide the RPS to its maker according to date of production and revision marked on the sticker of the systems. This specified time isn't be allowed to exceed in any case.

- 3. Validity:** since 1. 10. 2012

**U.S.H.- VÝROBA ZÁCHRANNÝCH
